

Gardner Denver

Your **Ultimate** Source for Pressure and Vacuum

Tomorrow Starts Here

A bright place to begin your future

Gardner Denver Industrials Group at a Glance

Gardner Denver Industrials Group is a leading global provider of air compression and vacuum technology. OEMs and end-users from every corner of the world rely on us for their business solutions.

With global teamwork, strong customer focus, and vast application knowledge, we provide reliable, energy-efficient products that serve an infinite range of manufacturing and process industries, including

automotive, waste water treatment, food and beverage, plastics, and power generation.

Gardner Denver Industrials Group is part of Gardner Denver, Inc., a leading global manufacturer of highly engineered products. Gardner Denver is headquartered in Milwaukee, Wisconsin, USA and has approximately 7,000 employees in more than 30 countries.

Gardner Denver Our Vision

We will be the industry's **first choice** for innovative and application critical flow control products, services, and solutions through an intense customer focus and disciplined performance culture.

Our Products & Services Touch Life in Numerous Ways

Powering Up Factories Worldwide

Spray paint and shot blasting equipment, pneumatic lifts and robots, these and numerous other air powered machines get the job done because of Gardner Denver, CompAir, and Hydrovane compressors.

Cool, Clean, Pure Water

Water treatment plants around the world turn waste water into safe, drinkable water thanks to the aeration capabilities of Gardner Denver and Robuschi blowers.

Flavor and Freshness Start Here

Food and beverage products get packaged, labelled, and conveyed with the unparalleled service of our Elmo Rietschle vacuum pumps.

Mastering the Ins and Outs of Transport

Gardner Denver Transport Solutions' compressors and blowers are used in mobile transport and help optimize loading and unloading of trucks and silos for grain, flour, and other dry and liquid bulk goods.

Range of Services Runs Deep

Specialized reciprocating compressors, part of the Gardner Denver High Pressure Solutions portfolio, create breathing air for scuba tanks.

Join Gardner Denver's Global Team

Are you the kind of person who:

- ... acts with the highest level of integrity and works collaboratively?
- ... makes decisions in a diverse and highly-motivated workplace?
- ... embraces change and adapts to business needs?
- ... strives to bring new and creative solutions to our customers?

Do you like an environment where:

Worldwide Presence

Global reach for our products and services keeps expanding and expanding because of one simple reason: customer demand.

Your Success is Our Success

"Our close-knit and expanding team puts innovative and progressive thinking to work every day as we develop compressors for a global marketplace."
 – Nicolas Henn, Design Engineer, Technology Division (R&D), Simmern, Germany

"Our close relationships with regional distributors and customers alike are crucial and at the core of our proud value system. This local expertise, coupled with a global approach where we collaborate with an international network of marketing specialists, gives us a strong competitive advantage."
 – Madeleine Colyn, Marketing Manager, Wadeville, South Africa

"Working at Gardner Denver makes my life meaningful. True to our motto to work together to create a better future, we continuously strive for growth, both for Gardner Denver as a whole and all its employees."
 – Justin Wu, Manager Production, Shanghai, China

"We are proud of 150+ years of delivering high quality compressor products for diverse industries. We're rooted in tradition yet focused on innovation and critical customer needs."
 – Richard Hinkle, Compressor Product Management Americas, Quincy, IL, USA

Rooted in History. Focused on the Future.

For more than 150 years, Gardner Denver has been a leading provider of compressed air and vacuum products. But every day we are driven to further raise the bar.
